Kerr[™]
RESTORATIVES

OUR MISSION

Kerr believes that dentistry is both a science and an art.

We also believe that being a successful dentist means mastering ever-advancing knowledge, embracing new tools of technology, and steering a growing business in a rapidly changing healthcare market.

At Kerr, we're here to help you navigate this challenging environment. Together, we become colleagues, sharing a vision for the future of dentistry--one in which the traditional divide between manufacturer and customer disappears. In short, our mission is to understand, listen, see where you want to lead us, and be there every step of the way.

Kerr Corporation is a manufacturer of premier dental consumables sold globally. Since 1891, Kerr has been developing and manufacturing products that are used in every dental restorative procedure today. As we advance esthetic dentistry through education and sustainable solutions based on clinician input, the name Kerr has become synonymous with integrity for dental professionals worldwide.

Every innovative product Kerr creates begins with you. No other company is as committed to dentists as Kerr. It's evident in the knowledge we bring to every challenge you face, whether it's improving patient care or making your job easier. And we've been a trusted solution for over 100 years.

BONDING AGENTS

OptiBond™ Universal

Single Component Universal Adhesive

- One coat application
- Can be used with self-etch, selective etch, and total-etch techniques
- Direct/Indirect Use – Excellent dental adhesive for enamel, dentin, porcelain and ceramics
- Low film thickness creates a better fit of final restorations (~5 microns)

36517	Bottle Kit
36518	Unidose (100 Pack)
36519	Bottle Refill
26909	Gel Etchant Dispensing Tips (pkg of 30)
31297	Gel Etchant Refill Pack

OptiBond™ eXTRa Universal

Two-Component Universal Adhesive

- 2 component Universal bonding agent with Self-Etch, Selective Etch, Total-Etch indications
- Outstanding bond strength to all surfaces & substrates for both indirect & direct
- Compatible with all resin cements & core build-up materials
- No need of any auxiliary products; i.e. dual cure activators, silane, primers
- Total Dark Cure mode when used with NX3 cement

36658	Bottle Kit (10ml)
36659	Unidose Kit (100 Pack)
36660	Bottle Refill - Primer (5ml)
36661	Bottle Refill - Adhesive (5ml)
24680	Applicators (50 Applicators x 4 Boxes)

OptiBond™ Solo Plus

Single Component Total Etch Adhesive

- Clinically proven - Universally accepted, industry standard total-etch adhesive
- Designed for both direct and indirect bonding applications
- 15% filler load

31514	Bottle Kit
29682	Unidose Kit
31513	Bottle Refill
29669	Unidose Refill (pkg of 100-10ml total)

OptiBond™ FL

Two-Component Total Etch Adhesive

- Structural adhesive. 48% fill load reinforces the bond strength
- Helps reduce postoperative sensitivity for patients
- Proven long-term performance. The gold standard in dental adhesive products for over 20 years on the market

- 35369 Bottle Kit
- 33352 Unidose Kit
- 35265 Primer Bottle Refill
- 35266 Adhesive Refill

OptiBond™ Gel Etchant

Phosphoric Acid 37.5%

- Precise application - non-slumping consistency
- Ease of use - rinses clean with minimum effort
- Vibrant purple color - highly visible

- 31297 Refill Pack
- 26909 Dispensing Tips

COMPOSITES

SimpliShade™

Simplified Universal Composite System with Adaptive Response Technology

- Designed with the proven Adaptive Response Technology (ART) also found in Harmonize™, to help you achieve lifelike restorations with exceptional strength and unmatched esthetics.
- SimpliShade matches all 16 VITA classical shades with just 3 shades: Light, Medium, Dark for faster shade-matching
- Streamline inventory management with only 3 shades for most of your composite needs. Declutter shelves, reduce or eliminate expired products.
- Use with confidence in all cavity classes without the need for a blocker.

37001	Syringe, Light
37002	Syringe, Medium
37003	Syringe, Dark

37008	Unidose 10 Pack, Dark
37009	Unidose 10 Pack, Bleach White
37010	Unidose 10 Pack, Universal Opaque

SonicFill™3

Bulk Fill Composite System

- 5mm depth of cure with SingleFill Composite System
- No need for capping layer or liner
- Improved adaptation to the internal walls and restoration margins
- Better non-sticky handling

- Simpler to extrude during placement
- Low shrinkage stress for lasting marginal integrity
- Benefits of both flowable and sculptable

36710 Intro Kit

The Intro Kit is an ideal way to get introduced to SonicFill 3. It contains a SonicFill Handpiece, a total of 60 Unidose™ tips with 40 Unidose tips in A2, 10 Unidose tips in A1 and 10 Unidose tips in A3. Also included are a Technique Guide, Directions for Use and a "Getting Started Kit."

Unidose Refills (Each refill contains 20 Unidose tips)

CURING LIGHTS

Demi™ Plus
Curing Light

- Lightweight, ergonomic design - Multiple holding options can reduce hand and arm stress
- Enhanced Body Design. This curing light's exterior is made from Valox resin, a high-performance plastic that will protect and extend the life of your unit. In addition, the upgraded closed housing allows for easier cleaning and disinfection.
- Improved Cooling System and fan free for quiet operation
- Periodic Level Shifting - Demi Plus employs the power of Periodic Level Shifting, (PLS), shifting output intensity from 1,100 mW/cm² to a peak of 1,330 mW/cm² multiple times throughout the curing cycle with a wavelength of 450 nm to 470 nm. PLS drives cool, continuous high output for a true 5-second cure without generating excess heat.
- Advanced Battery Design. The positive contact charger on this cordless curing light guarantees a snug fit between the contacts on the hand piece and the charger base allowing you to get the most out of every charge.
- Longer Warranty. Our three-year warranty ensures that you get the most value out of your premium LED curing light investment.

Take 1™ Advanced™
VPS Impression Material

- Outstanding flexibility. Flexible impression material stretches around undercuts without tearing or distorting.
- Hydrophilic dental wash material. Displaces intraoral fluids to produce impressions with great detail and no voids or gaps.
- Excellent dimensional stability. Impression will minimize distortion due to dimensional change or temporary deformation.
- Wide selection of viscosities, set times and delivery methods. Helps overcome common difficulties in impression taking, and matches doctor preference.

TEMPORARY CROWN & BRIDGE

Temp-Bond™ Temporary Cement

- Multiple formulations - Temp-Bond, Temp-Bond NE and Temp-Bond Clear with Triclosan for all of your temporary restorations.
- Delivery choices - Unidose™, tubes and new automix syringe offer flexibility in delivery options.
- Flows and mixes easily - Delivers optimal consistency for solid, complete seating of temporary restorations.
- High bond strength - Prevents leakage and sensitivity to cold and heat.
- Easy to remove - Minimizes potential for damage to the prep or temporary restoration.

Temp-Bond

00370	1 Tube Base (50 g), 1 Tube Accelerator (15 g), 1 Mixing Pad

CEMENTS

Maxcem™ Elite Chroma

Universal Resin Cement with Cleanup Indicator

Use Maxcem Elite Chroma as a self-adhesive or pair with any universal bonding agent* on preparations that need more retention.

- Smart cement that dispenses pink and changes to the cement shade.
- Color Cleanup Indicator shows when to clean up excess cement.
- Pink disappears after both self-cure and tack cure for maximum flexibility.
- Self-etch, self-adhesive resin compatible with all indirect restorations.
- 280% radiopacity for easy identification on X-rays.
- One-peel cleanup, easy storage, no refrigeration needed

36299	Clear Bulk Pack	36302	Yellow Refill
36300	Clear Refill	36303	Pink Tips Pack
36301	White Refill		

Maxcem™ Elite

Universal Resin Cement

Use Maxcem Elite as a self-adhesive or pair it with any universal bonding agent* on preparations that need more retention.

- Enhanced Bond Strength - 90% higher bond strengths to dentin than the original formulas, without an adhesive.
- One-peel™ clean up
- No need to refrigerate, easy cleanup, and no hand mixing required.
- Compatible with all indirect restorations. Anterior or posterior ceramics, PFMs and metal restorations, and CAD/CAM materials.
- Dual Cure - Efficient self-cure mechanism allows material to set up completely in the absence of light or tack cure.

Nexus Universal™ Universal Adhesive Resin Cement

- Dark cure mode simplifies steps by up to 50% regardless of which leading universal adhesive you use.
- You'll have the freedom to keep using your preferred cementation protocol and stay confident in a strong bond.
- Built with the same GPDM Monomer technology as OptiBond family of gold standard adhesives, Nexus Universal's bond strength is proven and tested.
- Nexus Universal Chroma cement dispenses pink and gradually fades to the cement shade, indicating the optimal time to clean excess cement.

NX3™

Universal Adhesive Resin Cement

- Permanent resin cement system with an innovative chemistry for unmatched esthetics.
- When used with OptiBond eXTRa Universal, eliminates the need to light cure the adhesive, resulting in virtually no film thickness, no seating issues and imperceptible margins.
- Streamline the cementation procedure while providing high bond strength when used with OptiBond eXTRa Universal.

POST & CORE

FibreKleer™ 4X

Fiber Post

- Radiopacity up to 400% of Al—the post is clearly identified on a radiograph
- Multiple sizes and body styles—enables you to fit the post to the tooth—not the tooth to the post
- Mimics properties of the root—ideal flexural modulus properties help minimize root fractures
- Excellent light translucency—glass fibers help to preserve the natural lifelike esthetics
